INTRODUCING AND INSTRUCTIONS

- Step 1** Install your Theme.
- Step 2** Go to „Theme-Settings“ and save for one time.
- Step 3** Go to menus and create 4 new menus (Header left, Header right, Content, Footer).
- Step 4** Set up the menus for their areas on the left side in the four dropdowns.
- Step 5** Go to widgets and set up your widgets. If you don't want widgets in one of the areas, don't create any widgets in that area.
- Step 6** Customize your settings (from 2nd step).
- Step 7** Customize your logo. In /img/ you can find the psd files of the logo template.
- Step 8** Now, lean back and enjoy.

ATTENTION: Save one time your theme settings page after installing/updating PLUSED !!!
